

300

Technical drawing of a rectangular structure. The overall dimensions are 200 (height) and 130 (width). The structure is defined by a dashed line. Inside, there are two horizontal lines, each with a central dot and a circle labeled '45'. The distance between these lines is 130. The distance from the top edge to the first line is 20, and from the second line to the bottom edge is 20. The total height is 200. The overall width is 130.

Dimensions and labels:

- Overall height: 200
- Overall width: 130
- Internal height segments: 20 (top), 20 (bottom)
- Internal width: 130
- Internal features: Two horizontal lines, each with a central dot and a circle labeled '45'.

Technical drawing of a reinforced concrete slab (L. 337) showing two cross-sections (9 and 9A) and a plan view. The slab has a width of 337 and a height of 150. It features a central rectangular opening (FORO) and two circular openings (Ø14/20). The reinforcement is shown as a grid of bars. Dimensions are given in millimeters.

Section 9 (Top): Shows a cross-section of the slab with a width of 337 and a height of 150. The central opening (FORO) has a width of 240. The reinforcement is shown as a grid of bars. The top reinforcement is labeled 48, and the bottom reinforcement is labeled 9. The section is labeled 9.

Section 9A (Bottom): Shows a cross-section of the slab with a width of 337 and a height of 150. The central opening (FORO) has a width of 240. The reinforcement is shown as a grid of bars. The top reinforcement is labeled 50, and the bottom reinforcement is labeled 9A. The section is labeled 9A.

Plan View: Shows the top view of the slab. The width is 337 and the height is 150. The central opening (FORO) has a width of 240. The two circular openings (Ø14/20) are located at the ends of the slab. The reinforcement is shown as a grid of bars. The top reinforcement is labeled 48, and the bottom reinforcement is labeled 9. The section is labeled 9.

Dimensions:

- Width: 337
- Height: 150
- Central opening width: 240
- Circular opening diameter: Ø14/20
- Reinforcement: 48, 9, 50, 9A
